Thursday	Geography Music ICT	Geography Music ICT	Options A, B & C	Options A, B & C	Option 1, 2, 3 Lesson 4
Friday	Science Art RE	Science Art RE	Science RE	Biology Maths RE	Revision Day

Notes:

- Each time a subject is mentioned on this timetable, it represents around 50 minutes of home learning.
- Some subjects have two slots per week, some have one. If a subject has two slots per week they will set two 'essential' tasks rather than just one. Both will appear on the same instruction sheet so that students only need to look at one instruction sheet for each subject per week.
- Once the 'essential' tasks for these 3 subjects are done each day the student is then free to do the 'Take it further' activities available weekly for each subject or engage in family time.
- Friday for Year 12 is a chance to consolidate their learning or catch up with work they may have fallen behind on. It could also be the day for investigating different apprenticeships or universities. For the very few students still doing 4 options this is their chance to complete the work for this fourth option.
