

Our Core Values

Our Core Values underpin our school vision in forming happy, successful students and are embedded within every aspect of our school community. Celebrating more than just academic achievement the Core Values empower students to be successful and prepared for all aspects of their life.

Our Core Values are:

| | | |
|---|-------------------------------|--|
|  | Respect | Respecting ourselves, others and our community |
|  | Courage | Never giving up and taking on new opportunities. |
|  | Responsibility | Taking ownership of our actions and who we are |
|  | Consideration | Being thoughtful and giving our time for others |
|  | Intellectual Curiosity | Using new ideas and concepts, challenging our way of thinking |

Respect

Students show respect to God, others, and the All Hallows Community. They strive to have pride in themselves and demonstrate the highest standards of behaviour and appearance, actively engaging in the Catholic life of the school.

Courage

Students demonstrate courage through determination and positive attitudes, never giving up and taking on new opportunities available to them throughout the school. Students have confidence in themselves and demonstrate integrity by standing up for others and what they believe in.

Responsibility

Students take ownership of their actions and take responsibility for themselves to ensure they grow and develop as people as well as great learners.

Consideration

Students are thoughtful and give their time for others, both within the All Hallows family and wider community. Students are friendly, caring and kind, working positively with peers and staff.

Intellectual curiosity

Students use new ideas and concepts to challenge themselves and how they think. Logical and critical thinking stretches knowledge so that students think further both inside and outside of lessons.
