

11<sup>th</sup> February 2021

Dear Parent or Carer,

I am contacting you regarding your child's Design and Technology course for the year 2021-2022.

The disruption to learning throughout the last 12 months has meant that students have been unable to fully participate in the various Design and Technology subjects we offer.

To provide your child with a more varied course from September 2021, we are inviting students to choose three areas of specialism rather than one, rotating on a termly basis, allowing the students to make a more informed decision when it comes to the Options process for GCSE.

Students should select and prioritise the areas of Design and Technology they wish to study and put these in a rank order from 1 to 4, with their favourite as number one. We will endeavour to assign all students their first and second choice as a priority. The options are:

- Food
- Graphic Design
- Resistant Materials
- Textiles

Please discuss these options with your child and support them in completing this form [Design and Technology Options 2021](#) by no later than Friday 26<sup>th</sup> February.

Yours faithfully,

Mr S Lewis  
Head of Design and Technology

 01252319211
